WORK EXPERIENCE

Front End Developer

Ecom Department January 2022 – Present

- Develop E-commerce shopify websites with HTML, CSS, Liquid and Javascript
- Utilize web frameworks and various 3rd party tools to enhance and optimize UI/UX
- Fully involved in the process of design, development, and testing of client websites
- Working in an agile environment while utilizing Slack and Asana for communication, teamwork and task management

Junior Full Stack Engineer

Direct Edge Media November 2020 – December 2021

- Utilize OOP within an MVC structure to create extensions, widgets, and reports on a B2B E-commerce platform
- Pioneered the migration from an outdated platform to a modern one while also integrating unit testing
- Efficiently collaborated with a small team to reinforce development standards and complete tasks

Junior Application Developer

Postremo September 2019 – January 2020

- Developed an Android app that interfaces with the Denso SP1 RFID Scanner
- Set up Raspberry Pi(s) as touchscreen tablets for our POS software
- Assist CEO, perform daily office duties, and provide customer support

Sales Associate

Jack's Surfboards June 2015 – September 2019

- Provide great customer service by understanding customer needs and applying that knowledge
- Cultured a love to communicate and engage with various types of people
- Learned to be more resilient and patient in the workplace
